**SAFARI**   
MISSION

# From the Directors

**2021** was another great year for Safari Mission. Despite some restrictions still in place, we were able to finish school in 6 of our campuses all over Kenya, have our first combined graduation with graduates from all over the country, launch bi-weekly radio in two languages in East-Congo, take three trips into Congo with our Kenyan team, host virtual entrepreneurship seminars, East Africa Faith Conference, and alumni meetings, in addition to in-person conferences in Nairobi and Kisumu. Our students, staff, and alumni have also been busy doing outreaches and serving in the local communities. As we are heading into 2022, we fully expect our schools, outreaches, and ministry to go to new levels!

# Vision

---

The ultimate goal for Africa has to start producing missionaries and start reaching out to areas around them and even other parts of the world. As we work on producing entrepreneurs and societal leaders, we keep the focus in front of everybody that Africans can reach Africa. This is a strategy that will not just put a band-aid on a problem, but that will help Africa for generations to come!

# Congo

---

As we are venturing into the Eastern part of DRC, we are sending our Kenya team in to start the work. In line with our vision that Africans can reach Africa and that Africa has to become a mission sending continent, we believe the best people to reach the Swahili speaking people in DRC are our Swahili speaking team members from Kenya. With a phenomenal team of strong leaders and ministers, our team made three trips into Congo this year. One of the trips was made by car, driving from Nairobi and all the way through Uganda to the Eastern part of DRC. The

other trips were made by the newly opened flight route from Nairobi, Kenya to Goma, DRC.

Our team has been having pastor and leadership seminars for church leaders who for the most part have no formal education. The Congolese pastors are eagerly waiting for more training to better learn how to be a good leader and to grow their churches.

In addition, we have started a bi-weekly radio teaching that reaches 2 million Congolese in both Lingala and Swahili.

East Congo is a war-ridden and conflict filled part of Africa. From local guerrilla groups fighting for control to youth violence and drug abuse, East Congo is filled with uncertainties and instability. While our team was there, they witnessed uproar and violence although they themselves were spared. Shortly after, Goma had a volcanic eruption that caused even more suffering.

In 2022, we will continue to teach these pastors and leaders and give them proper training in the Word and in entrepreneurship.

1ST YEAR AND 2ND YEAR

.....

This year, we were able to run school in 6 out of our 9 campuses. Students were mostly meeting in-person, although they at times had to be flexible and jump online as restrictions limited gatherings. With over 200 students from all over the country, it was a logistical nightmare, but a rewarding year!

# Conferences

## In-person & Virtual

We have held both in-person and virtual conferences this year. Our annual East Africa Faith conference was a virtual event again this year, as was our entrepreneurship seminar. Thankfully, we were able to hold our Believer's authority conference in-person in Nairobi and we also participated in a conference in Kisumu.

# Outreaches

As part of our curriculum, our second year students have to plan and execute one week of outreach ministry in remote areas. This year, we did children's ministry and evangelism. Several people, including a witch doctor got saved, and children were blessed with both food, services and toys.

# Graduation

This year, we had one graduation for everyone in the entire country. It is the first time we have done that, and it was a great sight. Students come from all over the country to Nairobi and participate in the graduation dinner and graduation. This year, we had 120 graduates from all over Kenya

We are the official school of Rhema Bible Training College, Tulsa, OK. We stay true to the vision of teaching people faith. By raising up men and women who know the integrity of the Word of God and the move of the Holy Spirit, we are able to lay a foundation for many leaders throughout East Africa.

# Building and fence

---

Our campus in Mombasa is finally getting a proper fence around the compound. This is a great security upgrade and we will finally have a proper compound. Our building is still only half way completed and our kitchen/dining area also needs to be built. This is one of the projects that we will focus our attention on in the upcoming year.
